### EXAMINER'S COMMENT

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because non-initialed and/or non-dated alteration, i.e. the alteration of the date of execution of the declaration, has been made to the oath or declaration. See 37 CFR 1.52(c).

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Gaudet, Apostolou, Petersen, Holland, Thim, Schroeder, Speer and Hull show railroad crossings with variations of panel and seal arrangements. However, the prior art of record including those cited by Applicant, taken singly or in combination, does not suggest an arrangement comprising a combination of features, as specifically recited in instant independent claims 1, 9 and 17, including seals having elongated cavities that receive elongated metal retainers provided with openings and threaded nuts welded thereto; wherein, the threaded nuts receive bolt members that are welded to metal angles of the associated panel. Accordingly, independent claims 1, 9 and 17, along with claims 2-8, 10-16 and 18-24 depending therefrom are considered to be defined over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
